

# Year 4

## Religion

### Triune God

Students will:

- learn about the importance of the Feast of the Assumption
- explore how the Triune God (Trinity) is presented in Scripture

### Writing:

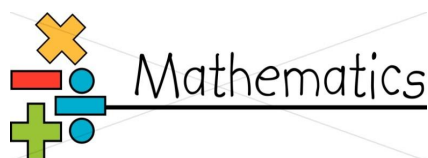

Students will:

- compose a procedural piece based on a science experiment
- review the features and text structure of an explanation

### Reading:

Students will:

- apply the learnt reading and comprehension strategies to their own reading
- engage in activities from this week's Book Week theme 'Old Worlds, New Worlds, Other Worlds'

### Length:

Students will:

- order, measure and compare length with formal units

### Fractions:

Students will:

- review the language of fractions and what it means
- explore equivalent fractions using a fraction wall and number line

### Science:

Students will:

- investigate the different types of force including non-contact and magnets
- learn how to pose questions and create a hypothesis before beginning a science experiment
