

YEAR 6

RELIGION

Students are completing their final Catholic Social Teaching - Preferential Option for the Poor. They are looking into how it's represented in scripture and how they can relate it to their modern world and our local community.

Students have been working hard in English during remote learning. Each day, they will have the choice to complete one of five different writing activities from different genres. This allows them to engage in rich, exciting tasks that vary each day. They will continue to refine their reading and comprehension skills through Reciprocal Reading with either physical or digital books.

Maths

Students will continue to work on Chance and Probability. They will be describing chance experiments and using fractions, decimals and percentages to compare and contrast.

INQUIRY

We will continue to plan and put into practise strategies to promote health, safety and wellbeing. Here, students will begin to plan a workshop to teach people about caring for their mental health or physical wellbeing.

During remote learning, we are available for assistance with the GoogleMeet code 'Year6'.

Remote Learning will be delivered to our students using Google Classroom.

Year 6 Confirmation worksheets have been provided to students in hard copy and via Google Classroom. These are from the St Michael's Parish, and are an important aspect in preparation for Confirmation. Please take some time to complete these as a family.
